DR. HASSAN ABBAS ZAKI ASSOCIATION · HAZ-V2 USER TESTING

Test guide: Field researcher

Demo person: Ahmed Saeed · أحمد سعيد · Social Research

Username **researcher1**
Password **Demo@2026**

Tester (real name) _____ Job title _____ Date _____

Observer _____ PC / location _____ Round _____

How this test works

1. You use the system; the observer writes. Say aloud what you are looking for and what you expect.
2. Read only the case title and goal first, then try it yourself. Use the steps when you are stuck, and tell the observer.
3. The observer helps only after 2 minutes stuck. Any help is recorded. This tests the system, not you.
4. Grey steps are done by another login (shown under "By"). Watch them or skip them, as the observer says.

- **W, Works**: done, result as described.
- **H, Hard**: done, but confusing, slow or you hesitated.
- **F, Fails**: wrong result, an error, or could not finish.
- A case **passes** when every step works with no S1 or S2, with no help or one hint, in up to 1.5× the target time, ease 4 or 5, and it matches how you work.

LEVEL	MEANING	EXAMPLE
S1	Blocks the work, wrong money, or data seen by the wrong person	A researcher sees a donor's amount
S2	Finished only with help or a workaround	Cannot find where approved cases go
S3	Works, but confusing wording or layout	An unclear button label

EV-02 Request leave and see the balance

All staff · target 8 min

Goal. Self-service leave is the feature every employee will touch. It must be obvious without training.

Before you start. Leave types in the demo are SAMPLE rules, not legal values. You are testing the steps, not the number of days.

RS-01 Register a case from a filled paper research form

Social Research · target 20 min

Goal. The main daily task of a researcher. If this takes much longer than the paper form, researchers will keep using paper.

Before you start. Bring one real filled research form with the names and ID number changed. Time the whole entry.

#	DO THIS	YOU SHOULD SEE	BY	RESULT
1	إدارة الحالات → الحالات → add a new case.	The screen sections follow the same order as the paper form.	**You**	☐ **W** ☐ **H** ☐ **F**
2	Fill the head of household, address, marital status and ID.	Fields match the paper form; nothing you need is missing.	**You**	☐ **W** ☐ **H** ☐ **F**
3	Add every family member in the family table.	Each member saved with age, relation, education and work.	**You**	☐ **W** ☐ **H** ☐ **F**
4	Enter all income and expense lines (food per day).	إجمالي الدخل, total monthly expenses and العجز الشهري (المصروفات - الدخل) are calculated for you; food is multiplied by 30. Check against your hand calculation.	**You**	☐ **W** ☐ **H** ☐ **F**
5	Fill housing, the household items checklist and medical conditions.	The household items list is already there to tick.	**You**	☐ **W** ☐ **H** ☐ **F**
6	Save.	The case gets a unique case code, status under study, and you as the researcher.	**You**	☐ **W** ☐ **H** ☐ **F**

Feasibility: is any field on the paper form missing on screen, or is there anything on screen the team never fills in? List them in the notes.
